## Lesson Activity for Grade 5 (Social Studies: Canadian Regions)

Student Name: \_\_\_\_\_

1. According to geologists, Canada is a very unique place to observe rocks and sediments. We also have a diverse set of physiographic regions in Canada as well. Let's read on and learn more about the country we live in...

2.

3. Read the first four descriptions and then answer the following questions:

1. Canada has six time zones. Can you name the provinces that fall under each?

Pacific Time Zone	Mountain Time Zone	Central Time Zone
Eastern Time Zone	Atlantic Time Zone	Other?

2. What are the names of the three territories that encompass Canada's "third" sea, the Arctic Ocean?

3. Canada has an abundance of national and provincial parks. Can you name three in your province?

### PHYSIOGRAPHIC REGIONS

4. Read the next section on Canada's geographic regions...

1. What provinces belong in each of the physiographic regions of Canada?

2. Can you name three physiographic features in your own province?

3. Where does most of the population of Canada live? How do you think Canada's physiographic regions influenced this?

4. What is the oldest mountain range in Canada?

5. Canada's eco-zones....

1. Which eco-zones do you think comprise the coldest regions in Canada?

2. Where does the tree-line end in Canada?
