There are two types of Rainforests. What are they?

Though these two types of rainforests have their differences, they also have many

- | | |
|----|----|
| 1. | 3. |
| 2. | 4. |

Now let's try to identify four differences these types of rainforests have:

Temperate	Tropical

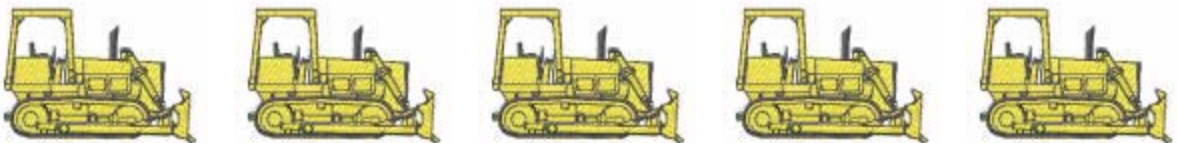

Student Name: _____

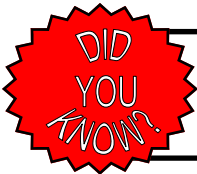

1.	Click on the left side of the screen where it says Where are Rainforests Located .
2.	Where are most of the world's tropical rainforests found?
3.	Where are most of the world's temperate rainforests found?

Rainforests are disappearing!

Can you think of four reasons as to why anyone would want to cut down our world's rainforests?

1.
2.
3.
4.

Did you know that each second a portion of rainforest the size of a football field is destroyed or damaged?

From what you have now read about the different characteristics of rainforests, what do you think it is very important to help save these rainforests from being cut down?
